

BI Name: _____
 Practice Class: _____
 Record Start Date Date: _____

For your project create an Integration Services Project, to load multiple textfiles.

Project name:

project_lastname2

sales_griesmayer2

Every task contains your last name!

Integration Services Project structure:

ForEach lastname

copy file lastname

delete tmp lastname

load lastname

delete old lastname

add new lastname

ForEach griesmayer

copy file griesmayer

delete tmp griesmayer

load griesmayer

delete old griesmayer

add new griesmayer

Create the files:

employee_20170225.txt

employee_20170226.txt

employee_20170228.txt

employee_20170228.txt

Store the data from the files in the following table:

Employee	
PK EmployeeID	INT
PK RecordSartDate	DATE
RecordEndDate	DATE
FirstName	VARCHAR(20)
LastName	VARCHAR(20)
Department	VARCHAR(20)
Salary	DECIMAL(10,2)
