

Oracle	Name:
Practice	Class:
Process	Date:

Describe the tasks of the following processes:

- DBWR
- LGWR
- ARCH
- SMON
- PMON

Check if the listener is currently running.

Use an SQL-Statement to find the SMON, PMON and LGWR process.

What is the Oracle PID?

What is the operating system PID?

Create a new user with YOUR LASTNAME. Adapt the following script and let it under the system user run:

```
/* DROP USER GRIESMAYER CASCADE; */
```

```
CREATE USER GRIESMAYER PROFILE "DEFAULT" IDENTIFIED BY "oracle"  
DEFAULT TABLESPACE USERS  
TEMPORARY TABLESPACE TEMP  
ACCOUNT UNLOCK;
```

```
GRANT SELECT ANY DICTIONARY TO GRIESMAYER;  
GRANT UNLIMITED TABLESPACE TO GRIESMAYER;  
GRANT CONNECT TO GRIESMAYER;  
GRANT RESOURCE TO GRIESMAYER;
```

Login with the new user (LASTNAME) and kill this session.
